

S. J. Construction

Building Trust,
Delivering Excellence.

Established 2016 · Ahmednagar & Pune

A Relationship-Based Construction Partner

SJ Construction has built a solid reputation across Ahmednagar and Pune as an honest, hard-working, and premier construction contractor. Our highly qualified personnel understand both construction operations and the design process, enabling cost-effective, quality-controlled site management at any scale.

- ❏ **Our Promise:** Every project receives personal attention from planning to completion. We prioritise transparent communication and client education throughout.

What We Do Best

From bulk excavation to full-scale civil works, SJ Construction delivers end-to-end site solutions with precision and professionalism.

Bulk Excavation

Earth, rock, muck, and trench excavation for projects of all scales.

Site Preparation

Footing excavation, cut and fill, and basement excavation.

Specialised Operations

Controlled blasting for challenging ground conditions.

Civil Works

Full-scale building construction with rigorous quality control.

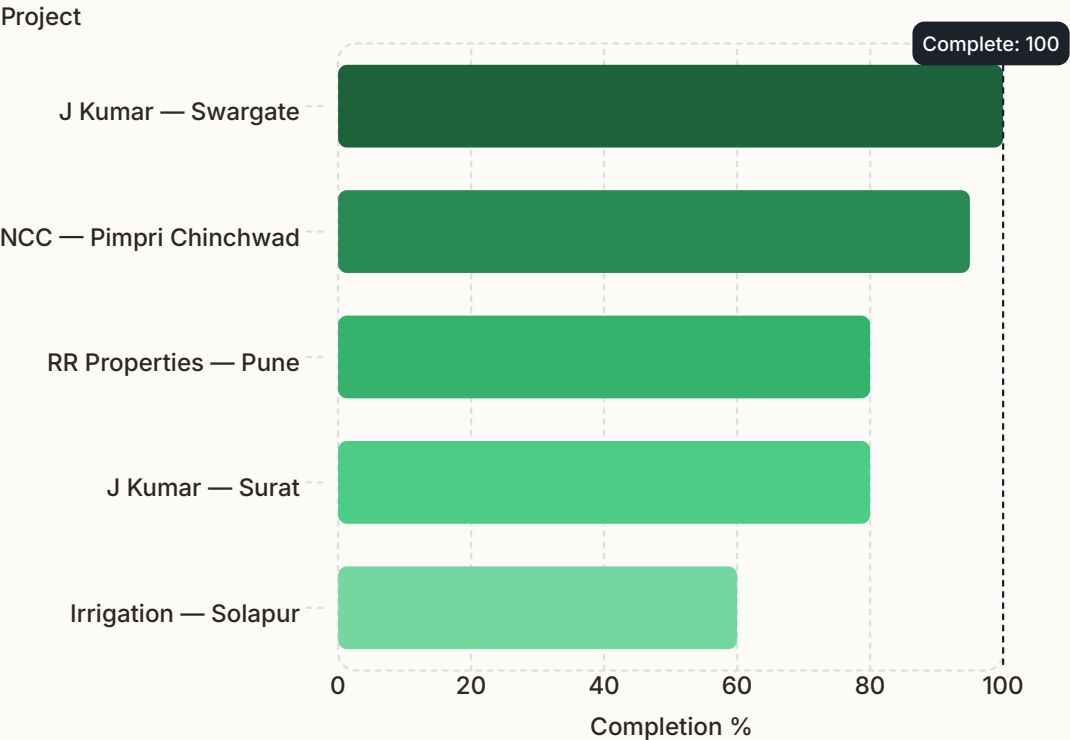

Ongoing Projects at a Glance

Our active portfolio spans metro infrastructure, irrigation, and commercial developments across Maharashtra and Gujarat.

Machinery & Equipment

Our modern, well-maintained fleet ensures operational readiness and efficiency on every project.

Excavator

12 nos. — Heavy excavation, trenching, and material handling.

Back Hoe Loader

3 nos. — Versatile digging, loading, and site preparation work.

Tanker Truck

2 nos. — Water transport and dust suppression at site.

Hywa

30 nos. — Efficient transport of earth, aggregates, and construction material.

Trailer Truck

2 nos. — Movement of heavy machinery and large equipment.

Pick Up Truck

3 nos. — Quick transport of tools, parts, and support materials.

Concrete mixer

4 nos. — On-site mixing and delivery of concrete for construction works.

Soil Compactor

3 nos. — Ground compaction for stable roads and foundations.

LR Excavator

2 nos. — Long-reach excavation for deep or extended work zones.

Asphalt plant

1 nos. — Production of asphalt mix for road surfacing.

RMC Plant 60 TPS

1 nos. — Ready-mix concrete production for consistent supply and quality.

Human Capital

A skilled, dedicated team of **29 professionals** drives every project — from site engineers and supervisors to certified operators and drivers. Our people are the backbone of SJ Construction's reputation for quality and reliability.

01

Site Engineers

4— Technical oversight and quality control.

02

Site Supervisors

5 — On-ground coordination and safety.

03

Accountants

01 — Financial management and compliance.

04

Professional Operators

18— Certified heavy machinery operators.

05

Heavy Vehicle Drivers

35— Experienced transport and logistics crew.
